

RISHABH ENTERPRISES

COLD CHAIN - OFFERINGS

ABOUT US

Rishabh Enterprises

One of the leading manufacturer and distributor of refrigeration and air conditioning spare parts solutions and consumables for industrial, commercial and residential applications in Chennai (South India). What started as a low profile refrigeration Spare Parts dealer in 1993, today has become the No.1 choice for all refrigeration and air-conditioning needs.

Introduction: Electrical Control Panels

- Bestowed with an ingenious team of designers and advanced production unit, we have been able to introduce an exclusive range of **control panels** for **Cold Rooms, BMCs, AHUs, Chillers etc.**
- The offered panel is developed in accordance to industry norms and quality parameters.
- In the offered panel, all the components and material used have been approved and certified by agencies.
- In addition, this panel can be built and developed according to the specification provided by the clients.
- Furthermore, our professionals opt for strict quality inspection made on the panel to ensure uninterrupted operation.

Electrical Control Panels

Various Applications- Cold Rooms/ AHUs/Chillers/
BMCs..

RE
Re-Tech

Chiller and Freezer Room Control Panels

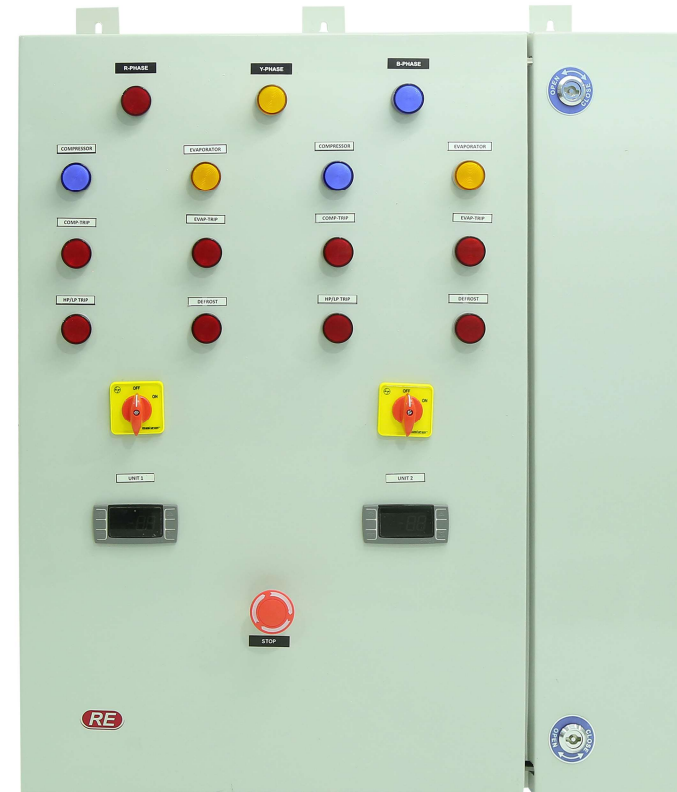

- All Schneider Contractors.
- **Precise temperature Range** : – 50.0°C to + 50.0°C and Resolution 0.1 C
- HP/LP , AUX faults for compressor protection
- Dixell Controllers.
- Single Phase Prevention
- LP/HP Cut Out Indication
- Antifreeze safety with display.
- Under Voltage / Over Voltage Protection and display.
- Compressor Overload trips.
- Computer Connectivity over RS485 and Remote monitoring(Optional).

Data Logging and Monitoring Option also available

Chiller and Freezer Room Dual-Control Panels

- For Controlling for 2 or 4 Rooms in a single Panel.
- All Schneider Contractors.
- Dixell Controllers.
- Single Phase Prevention
- LP/HP Cut Out Indication
- Antifreeze safety with display.
- Under Voltage / Over Voltage Protection and display.
- Compressor Overload trips.

Data Logging and Monitoring Option also available

Chiller and Freezer Room Part Winding-Control Panels

- For Part Winding Compressor – Semi Hermetic Appl. For Low Temp.
- All Schneider Contractors.
- Dixell Controllers.
- Single Phase Prevention
- LP/HP Cut Out Indication
- Antifreeze safety with display.
- Under Voltage / Over Voltage Protection and display.
- Compressor Overload trips.
- Computer Connectivity over RS485 and Remote monitoring(Optional).

Data Logging and Monitoring Option also available

Chiller and Freezer Room Glycol Chiller-Control Panels

- Wiht Part Winding Compressor – Semi Hermetic Appl. For Low Temp.
- Chilled Water temperature multiple displays
- Oil Level Controlling
- All Schneider Contractors.
- Dixell Controllers.
- Single Phase Prevention
- LP/HP Cut Out Indication
- Antifreeze safety with display.
- Under Voltage / Over Voltage Protection and display.
- Compressor Overload trips.

Data Logging and Monitoring Option also available

AHU Starter Panel -Control Panels

- With Multiple AHU temperature display with Dixell Controllers.
- Computer Connectivity over RS485 and Remote monitoring(Optional).

Data Logging and Monitoring Option also available
