

FLIRING TOOL

Elctrical Flaring Tool

VET-19-S

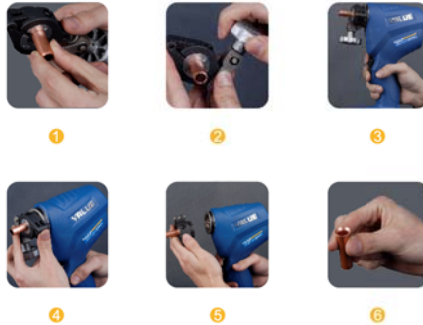

Quick Flaring

- 5-second fast and accurate flaring
- Single head, easy to use for small space
- Not limited by environment condition

• Chinese patent 

Operation

Specification

Power supply :	DC motor
Applicable Pipe :	Copper pipe
Tube O.D. :	1/4", 5/16", 3/8", 1/2", 5/8", 3/4"
Flaring shape :	Flared
Tuber cutter:	VTC-28B
Deburring tool:	VTT-5
Weight :	5.8Kg

BENDING TOOL

VBT-1

Three in One

- Using high quality aluminium, light weight, easy to bring with
- Adjustable hook
- Human factor designed handle makes bending easy

Specification

Model	VBT-1
Bending Size	1/2", 3/8", 1/4"
Bending Radius	1-1/2", 1-1/8", 11/16"
Bending Angle	0~180°
Applicable Material	All soft pipes, thin-wall copper pipes and annealed treated hard pipe

VBT-3/4/5

Easy Bending

- Twin roller design reduces the friction, makes the bending more convenient
- Human factor designed two-period bending, makes big angle bending easy
- Unique pre-deformation design, ensures the tube's eveness and quality

Specification

Model	VBT-3	VBT-4	VBT-5
Bending Size	5/8", 16mm	3/4", 19mm	7/8", 22mm
Bending Radius	2-1/4"	3"	3-1/4"
Bending Angle	0~180°		
Applicable Material	All soft pipes, thin-wall copper pipes and annealing treated hard pipe
